

The Safest Way To Store Important Possessions

SafePod by Best Lockers is a new alternative for venues that want to provide personal storage solutions to guests or employees.

Using a digital keypad and a motorized locking mechanism, SafePod offers guests and venue staff a secure and simple way to protect their important belongings with two modes of operation: Single Use Mode and Assigned User Mode.

With solid welded steel construction, a durable powder coat finish, and LED illuminated door handles, this latest in locker innovation is a smartly designed solution for most environments.

Learn more about SafePod by Best Lockers and see how it can improve your employee and guest satisfaction today!
